

Carea Community Health Centre staff and Board of Directors stand with the Asian community condemning the senseless act of violence, racism, and bigotry. These terrible acts must stop now and never be tolerated by anyone. It is our role as a nation and as a community to stand firm against those who perpetrate and promote this inhuman behavior.

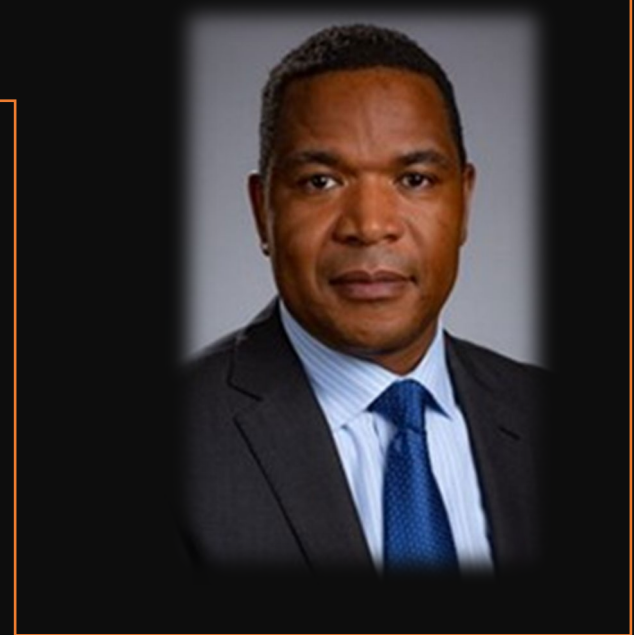

Carea Community Health Centre values inclusivity, equity, and fairness for all, regardless of place of origin, race, and creed. It is our role to call out these senseless acts as soon as we see them wherever they are taking place.

We stand with you in this difficult time.

#stopasianhate #bekind
